PROFESSIONAL EXPERIENCE

Software Developer — Full Stack | ZAR Luxury Pvt. Ltd., Mumbai *Dec 2025 – Present*

- Built responsive, high-performance web interfaces using **React.js**, **Next.js**, **Tailwind CSS**, and **GSAP** animations, improving front-end interactivity and user engagement.
- Designed and developed secure **REST APIs** and backend services with **Node.js** and **Express.js**, implementing **JWT-based authentication** for protected, role-aware access.
- Managed **MongoDB** and **PostgreSQL** databases powering production features; maintained the ZarLuxury mobile app [confirm framework, e.g. Flutter/React Native].
- Improved website load performance through **lazy loading**, **code splitting**, and caching strategies, and integrated **Cloudflare R2** for optimized static asset delivery.

Frontend Developer Intern | SK Children Foundation, Delhi (Remote) *Sep 2022 – Jun 2023*

- Developed and maintained an NGO data-form submission platform, increasing form submission efficiency by **40%**.
- Progressed through three roles — Volunteer → Frontend Developer → Web Domain Mentor — reflecting fast technical growth, ownership, and reliability.

PROJECTS

Queryly — AI-Powered Q&A Platform
React.js, Node.js, Express.js, MongoDB, JWT, Ant Design | queryly.vercel.app

- Architected and built a full-stack Q&A platform with **Google OAuth** and email authentication, supporting **40+ beta users**.
- Implemented **role-based access control**, user profiles, likes, and comments to drive user engagement and content quality.

MehendiBooking.com — Mehendi Artist Booking Marketplace
Next.js 15, TypeScript, Node.js, Express.js, MongoDB, JWT, Razorpay | mehendibooking.com

- Built a full-stack marketplace connecting clients with verified mehendi artists, featuring geolocation-based discovery (**Haversine** ranking), a tiered subscription system (Basic/Elite/Premium), and **JWT** (access + refresh token) authentication with email **OTP** verification.
- Integrated **Razorpay** payments with **HMAC-SHA256** signature verification and built a **13-page admin dashboard** for managing artists, leads, and payments; used **Cloudflare R2** for portfolio storage and **Firebase Cloud Messaging** for push notifications.

Spring Boot Citizen Report Application
Java, Spring Boot, Spring Data JPA, MySQL | GitHub

- Built a citizen-plan search system generating on-demand **PDF** and **Excel** reports from relational data.
- Automated **email delivery** of generated reports, reducing manual distribution effort.
